

Graduate Fellowship in
Silviculture, Fire, and Forest Health

Academic Year 2019-20

Fellowship Description

The faculty members within the Silviculture, Fire, and Forest Health area of concentration in the Department of Forest Engineering, Resources and Management at Oregon State University announce the availability of a full time (0.49 FTE) fellowship for a newly accepted graduate student for the 2019-20 academic year. The selected recipient will conduct graduate research using creative quantitative and qualitative tools and approaches to address applied research questions in the area of disturbance ecology and the management of vegetation growing space in forests. The fellowship is available for a student pursuing either Masters (M.S.) or Ph.D. level graduate study. The successful applicant will have a record of high academic achievement, strong letters of reference, and demonstrated potential for success in graduate study based on personal work ethic and skill sets (e.g., communication skills.)

Graduate Study in the Department of Forest Engineering, Resources and Management

The selected fellowship recipient will participate in the Department's Sustainable Forest Management (SFM) degree program. The SFM graduate program emphasizes the management of forests to meet a defined set of ecological, economic, and social criteria. The program provides a strong grounding in the principles and techniques of active management of forests to improve forest health and condition while producing a full range of products and ecosystems services. The Department of Forest Engineering, Resources and Management is recognized throughout the world for excellence in graduate student education, creative problem-solving research, and innovative extended education. Graduate students within the College of Forestry have access to state-of-the-art classrooms, computer and research laboratories, and the University's world-class research library. Computer facilities include several microcomputer and GIS laboratories and other facilities dedicated to graduate student research.

To Apply (by December 31, 2018)

Interested applicants must; 1) complete the graduate study admission process as outlined in the Sustainable Forest Management graduate degree program [Advising Guide](#), and 2) send a cover letter stating their interest in fellowship consideration and curriculum vita or resume to Dr. John Bailey (John.Bailey@oregonstate.edu) by December 31, 2018.
